

Weighing platform

model PMA-S

***Single load cell platform
Capacities up to 300 kg
Robust, portable, stainless steel weighing platform and structure
Excellent quality/price ratio***

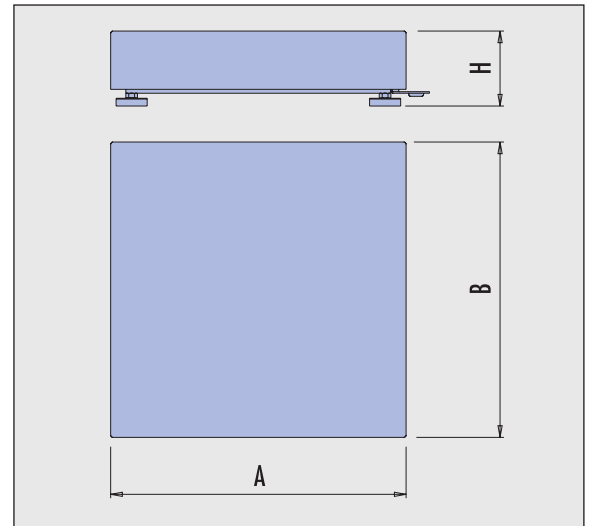

PMA-S weighing platform

Main features

- Robust AISI 304 stainless steel structure
- Off centre IP65 aluminium load cell manufactured in accordance with OIML R60 standards
- Adjustable feet and integral spirit level for easy accurate levelling
- Can be easily integrated into production and control lines
- Built-in overload protection
- Satin finish AISI 304 stainless steel weighing platform
- Shielded cable for connection to weight terminal (standard length 3m, other lengths on request)
- Possibility to install idle roller unit with PVC or stainless steel rollers
- Trade approved version or for internal use
- Can be connected to a wide range of Coop Bilanciai electronic terminals
- Customised sizes and capacities available on request

Detail of the stainless steel structure

Options

- Stainless steel column H=550 mm from the weighing platform (not available for 30x24 model)
- Compact version (with D70 terminal only, not available for 30x24 model)
- Fixed support frame in AISI 304 stainless steel
- Mobile AISI 304 stainless steel frame with wheels
- Multi-range version
- Calibration report for quality assurance compliance
- High resolution version
